Showcases For Sale

The attachments are pictures of the showcases and the CCE attachment has 10 pages of drawings and a layout of the showcases. These cases are modular design so they can be rearranged to fit almost any space. For \$55,000 you get everything that is highlighted, all 39 pieces. These cases cost over \$200K new.

16 standup cases, 8 museum cases, 9 sit-down cases, 1 tall curved duratran w/storage, 2 tall duratran w/small display and storage, 2 corner storage cabinets and 1 corner coffee bar includes the top corner cabinet. Also the track lighting that goes above cases 1-22.

These cases are not beat up and are in excellent condition. They have tons of storage and the display drawers pull out and can be put into the vault.

If you have any questions just call me at 701 255 2600 or 701 220 3100

Asking \$300

This is a great large locking glass and formica display showcase. It has 3 doors that lock and shelves that are adjustable. Below the doors in the back are sliding storage compartments. It measures 40" height, 23" deep, and curves so is approximately 11 ft long. It is a fantastic showcase but just does not fit in our store

Please call 616-949-7370 or 616-821-1611 with any questions.

Roland - JWX-10 Jewelry Model Maker Milling Machine

\$5,000.00

Description:

The JWX-10 is the jewelry-specific mill custom retailers have been dreaming about. Powered by a high-speed 20,000-rpm spindle, the 4-axis desktop machine quickly produces detailed wax models. It is the fastest and easiest way to create rings, bracelets and charms.

Powered by its high-speed 20,000-rpm spindle, the JWX-10 quickly mills wax models with detailed resolutions up to 0.002mm/step. The desktop jewelry machine includes holding fixtures that make it easy to customize non-proprietary, off-the-shelf jewelry wax stock. It also comes with 4-axis CAM software, user manuals, tools, wax and

Very detailed information continued on next page.

comprehensive tutorials. The JWX-10 is compatible with all jewelry CAD/CAM applications, including Gemvision Matrix, Artcam Jewelsmith, Type3 3Design, JewelCAD, JewelSpace and Rhino Techgems.

- Mill wax models from any jewelry CAD software
 - Unattended jewelry model making
 - 4-axis milling for producing intricate jewelry designs
 - Professional CAM software included
 - Compact, fully-enclosed device size fits in any office or shop
 - Offers both speed (20,000 rpm spindle) and precision (0.002mm/step)
- Maximum work area: 14cm (W) x 10.5cm (D)

Breathtaking Quality

The JWX-10 turns even the most intricate CAD designs into reality. With detailed resolutions up to 0.002mm/step, this beautifully designed 4-axis mill captures every subtle nuance of your designs. Its exacting precision produces superior custom jewelry that will delight your customers and keep them coming back for more.

Easy To Use

Jewelry makers with existing CAD files can use the JWX-10 to mill their designs within an hour after opening the box. Needless to say, this desktop device is incredibly easy to use. The JWX-10 comes with holding fixtures that secure nonproprietary, off-the-shelf jewelry wax stock during the milling process. It also includes 4-axis CAM software, user manuals, tools, wax and comprehensive tutorials.

Compact & Fully Enclosed

The JWX-10 is a compact and fully enclosed desktop mill. It runs quietly and fits easily in any office or jewelry shop. At the same time, its work area (5-1/2" - 1/8")

Bundled CAM Software

Roland MODELA Player 4 comes bundled with every JWX-10. This powerful and easy-to-use CAM software supports continuous 4th axis milling for producing a silkysmooth surface finish. The software accepts IGES, DXF and STL files exported from all popular Jewelry CAD software applications, including Gemvision Matrix, Artcam Jewelsmith, Type3 3Design, JewelCAD, JewelSpace and Rhino Techgems.

Reliable Performer

Roland's international ISO certification is your quality assurance. Like all Roland products, the JWX-10 was designed and manufactured at a state-of-the-art, ISO-certified facility. Roland builds all products at its advanced Digital Factory one at a time by a single assembler - just like a Rolls Royce. Attention to detail is given the highest priority.

Reason for selling:

A few years ago I purchased this complete Roland JWX-10 milling machine, but after working 48 years in fine jewelry profession, I truthfully got tired of making jewelry and decided to retire TOTALY. Thus I never utilized this machine and the reason for selling it at this time.

Included:

- Roland JWX-10 Milling Machine
- ALL Set-up and Instructional Manuals
- Roland Software Package Programs (Two Discs)
- Roland Modela Player 4 Program
- Proto Wizard (Jewelry) Program
- TechGems Rhinoceros 3.0 Plug-in for Jewelry Program
- All Tools
- A full assortment of milling wax's

YouTube Videos:

If you are unfamiliar with the cutting process, below are two videos shown on YouTube. They both show the cutting process in action, for a better understanding of the machines capabilities.

Memco Inducto-Vac Casting Machine Model 7000 serial # 9749 \$2500

This used Memco Inducto-Vac Casting machine, Model number 7000 serial number 9749, is an induction melting vacuum assist casting machine for casting gold, silver or other similar metals. It does not cast platinum or stainless. Power requirements, 120V 12 Amps. I have only casted 21 times with this machine and this machine is in like new condition. Also included with the machine is all the Flasks, new startup equipment that came with it, and Gas Mixture cylinder. This machine weights about 200 lbs. This would be a pickup from our shop (A good reason to visit the Sunny West Coast of Florida) or buyer can arrange for crating and shipping.

**WANTED TO BUY
SHOWCASES**

Antique Style Showcases

Ken Kirkland with Kirkland Jewelry in Dothan, Al.

contact numbers are 334-793-1793 store and cell number is 334-797-2115.

I am looking for two antique style jewelry showcases at least 6 foot in length to display my estate jewelry in. I would like something real nice and I do not mind spending the money to get them. I would like for them to be lighted and lockable too, but I know I might not be able to be picky on this. I would like for the wood finish to be dark also.

Thanks,

Ken Kirkland
